

### **Bathrooms the new living rooms!**

The afternoon, set in Parryware Display Studio, IFFCO Towers, Gurgaon, was dedicated to pamper moms with a special makeover and styling session by Ishika Taneja. The participants were given exciting makeup tips including makeovers and summer special look along with an indulging nail art session.

Parryware believes that bathrooms are the new living rooms today and it's the place where moms actually get their 'me' time and experience life at its most basic and personal. Hence, the initiative- Mom's Day out is completely in sync with the idea of giving mothers an occasion to pamper themselves.
