Parryware presents India's toughest Ceramic Steel Bathtubs

Designed in true European style and imported from our factories in Portugal and Spain, the Ceramic Bathtubs are sure to inspire a contemporary bathroom decor and enhance bath experience to the next level.

Inspired by nature, innovated by Parryware, the key distinguishing features of the tough bathtubs are anti-slip surfaces, resistance to surface impacts and scratches, abrasion and chemical agents and maximum sound insulation against the noise impact during use through noise pads. A timeless bathroom product, these bathtubs are 100% ecologically friendly and recyclable. Extremely stable even when submitted to loads up to 300Kg. Parryware's vitreous enamel anti-slip is made of a combination of quartz and sand, and is permanently bound to Steel Enamel Surface.

The range offers three variant collections, namely, Atlantica, the all new Universal Anatomica and Europa collection. Providing a broad choice to the bathing area, Universal Anatomica stands out amongst all with its geometric purity and comfort. It comes in three SKUs and twelve varied colors specially curated to complement the contemporary bathroom spaces. Atlantica collection is available in 1800x800 mm and 1700x800 mm size, Universal in 1700x750mm, 1600x750mm and 1500x750mm and Europa is available in 1700x700mm, 1600x700mm and 1500x700mm.

In the case of Universal there are a choice of colours available.

Ceramic steel bath tubs are available across all stores in India and with a price range of Rs. 12,500/- 21,000/-.
